

Build Trust in a world of mistrust

Consumer trust is at an all-time low while expectations of a positive healthcare experience are at an all-time high.

As a trusted referral source for women, the Women's Choice Award helps hospitals build trust in a world of mistrust by empowering her with a third-party validation that positively affects a woman's perception of the quality of care delivered by a facility. It serves as an anchor for women instantly making an emotional connection and giving her the validation she needs to trust and recommend a hospital with confidence.

A special thank you

to some of our valued partners and their great leaders
for raising the standards to meet the highest
expectations, not only for women but for all patients.

We applaud all hospitals that make the Best Hospital lists and the leadership and staff for their ongoing devotion to providing every patient with optimal care. We all thrive when women are empowered to choose the best healthcare for herself and her family and the Women's Choice Award is that trusted third-party validation she needs to Know Where to Go for the best care.
